

120

2 M14-10.9
Anziehdrehm. = 125 Nm

120

2 M14-10.9
Anziehdrehm. = 125 Nm

Technical drawing of a bracket showing a dimension of 120 and a torque specification: 2 M14-10.9 Anziehdrehm. = 125 Nm.

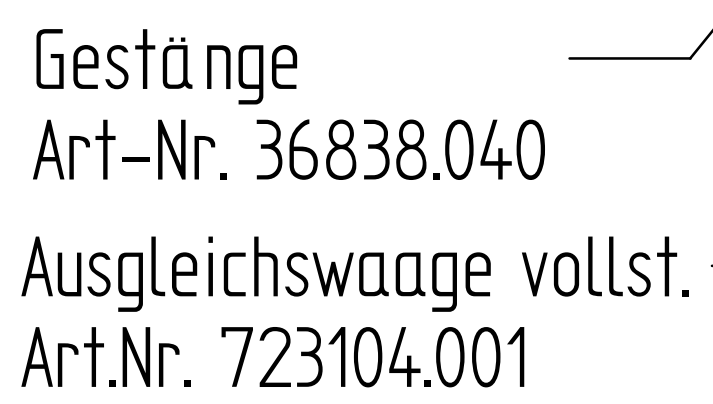

Technical drawing of a bolt with the following specifications:

- Length: 124
- Head Diameter: Dia40
- Thread: 2xM14-10.9
- Torque: Anziehdrehm=125Nm

Technical drawing showing the front view of the tool head assembly. The dimension 122 indicates the width between the centers of the two mounting holes. The specification 2xM14-10.9 Anziehdrehm.=125Nm indicates the thread size and the required tightening torque.
